

Personal History

Time Line Rough Draft

Essential Question: How does the history we study relate to my life?

Process: Students will create a layout plan for their time line that will guide construction of the final project.

Directions: Use the back of this page to plan the construction of your timeline. Make sure to:

- Include each year of your life
- Specify what event goes with which year
- Make clear what type of event you have chosen for each year
- Your design is neat, colorful and visually engaging

Keep in mind that this is rough draft!! It does not have to be perfect and it does not have to be that same as your final.
